

Merry Christmas and Happy New Year

Bollnäs December 2010

Time goes quick, the year 2010 comes now soon to an end and Christmas and New year approaching. For me and my wife it's also a time we think upon all friends around the world. Friends are more precious for us than nay material things.

We thank God for good health and protection for our family. This Christmas we expect to be gathered with all children at home. Debora will come from Kenya on Christmas eve and Marcus the day before from South Africa.

Even this year just as last we have a lot of snow. It has been very cold down to 20 degrees below 0.

Some of the highlights for 2010 was the the trip with a group to Kenya in February. Africa is a big part of my life and I love the continent despite the fact that I several times have been an inch from loosing my life there. Thinking about the violence robbery 2004 and the car accident on my way to Congo 2008.

In October I made a trip with a big team to Greece to follow in the footsteps of apostle Paul. He brought the gospel to Europe about the year 52 A.D. My dear wife Anna-Britt was in the team and to visit Athen and Acropolis and Areopagen was just great. I stood where Paul stood and preached against all idols. The challenge to bring message about the unknown God is still our main focus.

We want to wish you all a peaceful Christmas and New Year. I am planning to go with a team of 20 people to India in February and in May I hope to open a new center in North of Uganda.

*Yours in Christ,
David and Anna-Britt Duveskog*
